If you are using sheet steel then painting it . . . you need STELCOLOUR

★ The exciting new steel product from Stelco ★ Pre-coated in the colour or texture of your choice ★ Permanently bonded finish withstands all standard fabricating techniques ★ Saves time, labour, plant, space, inventory.

"STELCOLOUR" is sheet steel, galvanized or cold rolled, to which a factory-applied coloured or textured coating is bonded. Coils of steel are processed with vinyls, acrylics, alkyds, epoxies, phenolics, plastisols and organosols. Each coating has its own characteristics of hardness, elasticity, weatherability, durability, resistance to chemicals and abrasion.

"STELCOLOUR" is finished in solid colours—electronically matched to your standards—in patterns, wood grains, textures, and as simulated metallic finishes on one or both sides. You can blank it, bend it, form it, draw it. "Stelcolour" retains its original beauty and lustre through all normal fabricating operations.

STELCO **Prepainted Steel**

THE STEEL COMPANY OF CANADA, LIMITED • A Canadian-owned company with sales offices across Canada, and representatives in principal overseas markets.
